Event Calendar Instructions	This message appears at the top of the Event Calender on the patron side
Event List View Instructions	This message appears at the top of the List View on the patron side.
Event Registration Instructions	This message appears when patrons register for an event.
Payment Information	This instructs patrons how and where to pay for an event they've registered for.
Contact Information	Who and how patrons can contact about events in general (Note: this is not the event contact for specific events).
Cancellation Notice	Cancellation restrictions and notes.
Notify Me Instructions	The message patrons see when they click 'notify me' in list mode.
Email a friend Instructions	Instructions the patron sees when they click "Email a friend" in list mode.

Fields can accept HTML and graphic codes. If you change default text located within the ^ ^ markers, you will lose the message customization. Those carrot markers tell the system to insert the information specific to the event, date, or patron in question into the message.

Custom tags are specific to the pages on which they are found. They do not work on other pages. Do not use the custom tag from one entry in a different part of the program.

Please save changes.
