

Cemetery Maintenance

Article Number: 324 | Rating: 4/5 from 1 votes | Last Updated: Thu, Dec 22, 2011 at 9:14 AM

Genealogy allows you to maintain a list of area cemeteries as well as a list of who is buried in them. Access this from the [System Index Page](#)

-
To add a new burial record, click **Modify Cemetery Index**, then **New**.

Enter the name and date of death and pick the cemetery from the drop down menu.

To enter new area cemeteries, click Modify Cemetery Location List.

From there you can edit or delete existing cemeteries, as well as add a new new.

To add a new cemetery, click Add New.

Enter a name and location data. If you have a URL to a map of the cemetery, you can enter that as
