What is a Featured Event?

Article Number: 45 | Rating: Unrated | Last Updated: Wed, Sep 28, 2011 at 9:05 AM

Q: What is a Featured Event? How do I take advantage of this designation?

A: Marking an Event as 'featured' enables you to create custom calendars that highlight the biggest and most important events your library wishes to promote.

It allows you to group a variety of otherwise unrelated events together for public relations purposes. Your library staff will decide which events they wish to feature.

[The Events System allows you to create custom RSS feeds and calendars](#).

Simply add the switch: fe=1 to your custom feed to show only featured events.

Read the linked article for a more complete explanation of how to do create your customized feed.
