
Polaris - Integration with Events

Article Number: 571 | Rating: Unrated | Last Updated: Fri, Sep 19, 2014 at 3:01 PM

Polaris Library Systems has a module called Community Profiles that integrates with our Events product using the extended XML feed: <http://kb.demcosoftware.com/article.php?id=77> Attached is the mapping document showing how our Events system fields correspond to that system's fields. This integration hasn't been tested with our SignUp system yet. For more information, please contact Polaris Support Desk.

Custom Fields Applicable To: Admin Users**Attachments:** Yes**Summary:** How do Polaris and Events integrate with each other?
