508 Compliance and D!BS

Article Number: 578 | Rating: Unrated | Last Updated: Fri, Oct 17, 2014 at 4:19 PM

The Voluntary Product Accessibility Template (VPAT) is a tool that helps software buyers and users assess product compliance in meeting Section 508 accessibility standards. Evanced has completed a detailed assessment of D!BS to determine how well the product's user interface meets these standards. Â Evanced users and potential customer can view the results of this assessment in the attached document. Â If you have any questions about D!BS and 508 Standard, contact [Evanced Support](#).
