Payment Card Industry (PCI) Compliance

Article Number: 590 | Rating: Unrated | Last Updated: Mon, Aug 30, 2021 at 4:32 PM

The PCI DSS SAQ (self-assessment questionnaire) is a validation tool for merchants and service providers that are not required to undergo an on-site data security assessment per the PCI DSS Security Assessment Procedures. Demco Software (Evanced)'s SAQ has been verified by an approved scanning vendor, Trust-Guard. The results of the verification, the Attestation of Compliance, as well as the SAQ can be viewed in the attached documents. "Classic" applies to Events and Room Reserve. "New Core" applies to Signup and Spaces.

Custom Fields Applicable To: All Users**Attachments:** Yes**Summary:** PCI Compliance Details
